Greetings,

At Community Missions we have been working on a project that can be used to fit guests at our shelter and in our mental health programs, with a church that meets their needs. Presently it is still being developed and we are performing a beta run of our survey. Enclosed is a sheet that we kindly request be filled out to the best of your abilities. The questions span from worship times, types of programing offered, to theological perspectives of your church. We kindly thank you for your assistance.

Sincerely,
Reilley Larkin
